VOLLEYBALL ROTATIONS

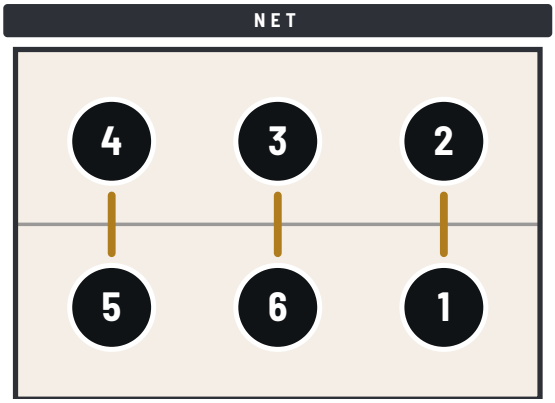

CHEAT SHEET

5-1 Serve Receive

Where to line up and where the setter goes, for all six rotations.

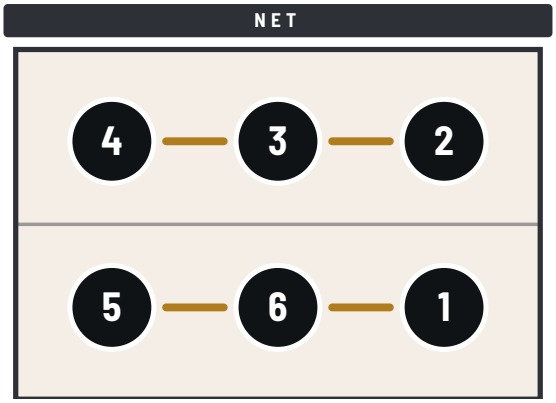

The overlap rule

When the other team serves, your six players must stand in the right **order**. The moment the ball is hit, everyone can move anywhere, so it only matters for that split second. The numbers are the court zones.

Stay in front

Each front row player stays closer to the net than the partner directly behind them.

Keep your order

Within a row, don't cross past the teammate beside you.

> **Only your neighbours count.** You only have to beat the players right next to you, never across the court. That wiggle room is what lets you shift into a receive formation and stay legal.

How to read the cards

PLAYERS

- S — **Setter.** Follow this one. In receive they move to the net to set.
- H1 — **O · H1 · H2 · M1 · M2.** Opposite, outside hitters, middles.
- L — **Libero.** Back row defender, in white.

MOVEMENT

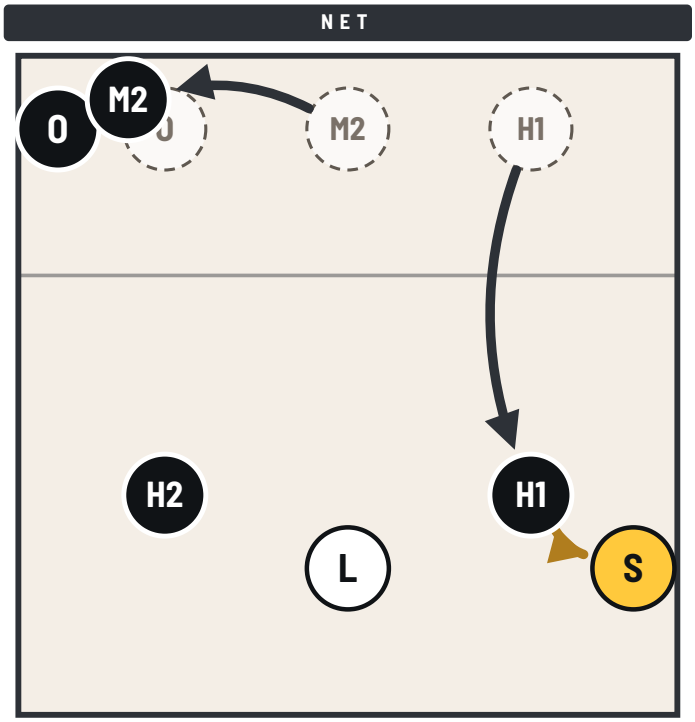

- S — **Dashed circle.** Your base spot in the rotation.
- → — **Arrow.** The move from base to your receive spot.
- → — **Gold arrow.** The setter's move to the net.

Covers **Base** and **Receive**. Scan any card to see Serve, Set, Attack and Switch.

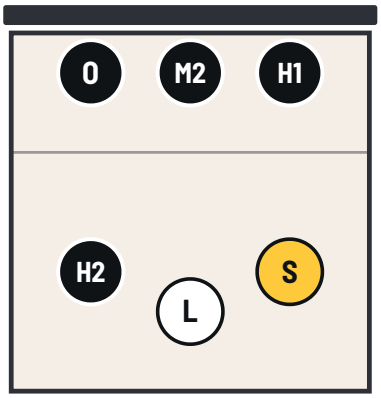

1 Setter Position 1

Watch it move

RECEIVE · MOVES FROM BASE

BASE · LINE UP · L IN FOR M1

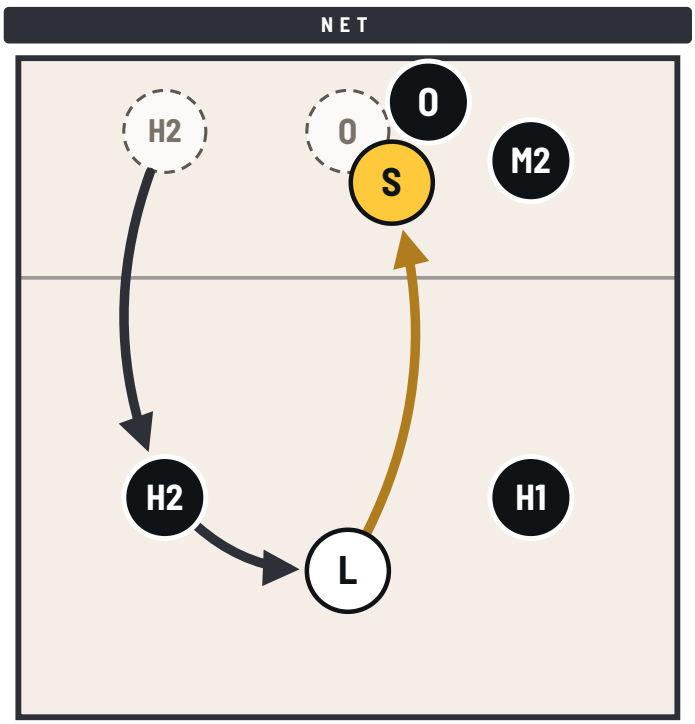

EASY TO GET WRONG HERE

- O stays left of M2
- M2 stays left of H1

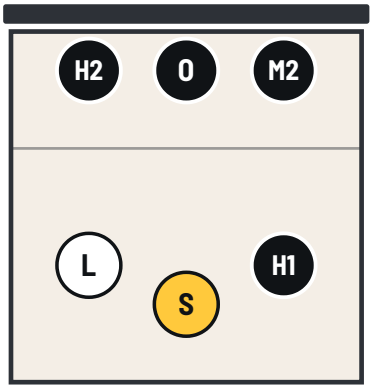

6 Setter Position 6

Watch it move

RECEIVE · MOVES FROM BASE

BASE · LINE UP · L IN FOR M1

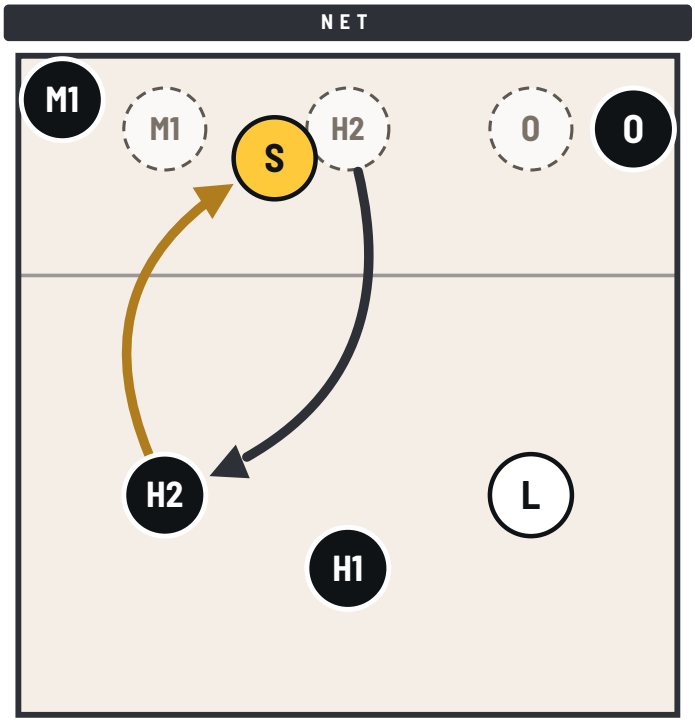

EASY TO GET WRONG HERE

- O stays left of M2
- L stays left of S
- S stays left of H1
- S stays behind O

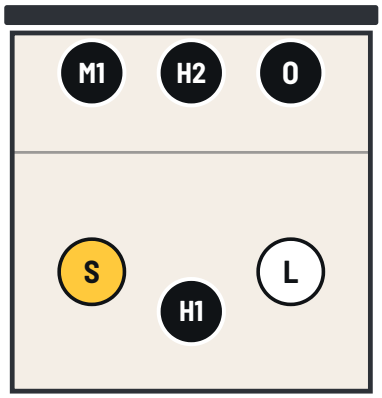

5 Setter Position 5

Watch it move

RECEIVE · MOVES FROM BASE

BASE · LINE UP · L IN FOR M2

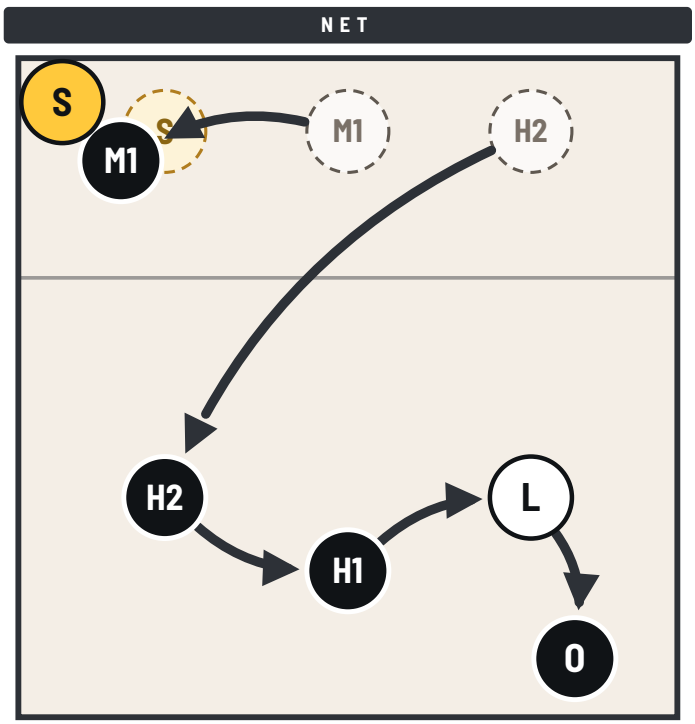

EASY TO GET WRONG HERE

- M1 stays left of H2
- S stays left of H1
- S stays behind M1

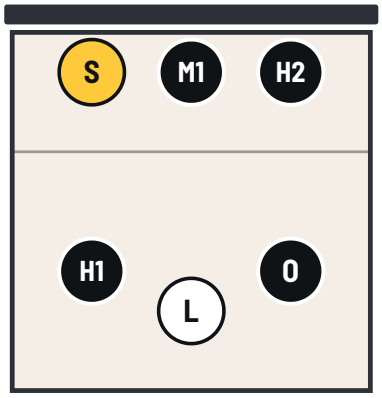

4 Setter Position 4

Watch it move

RECEIVE · MOVES FROM BASE

BASE · LINE UP · L IN FOR M2

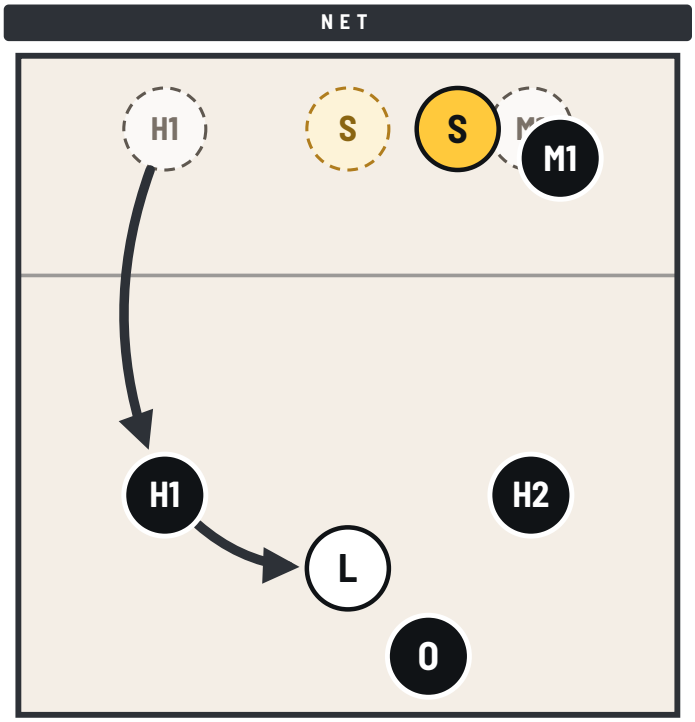

EASY TO GET WRONG HERE

- S stays left of M1
- M1 stays left of H2
- L stays left of O

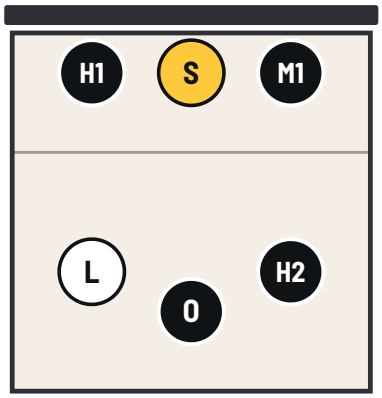

3 Setter Position 3

Watch it move

RECEIVE · MOVES FROM BASE

BASE · LINE UP · L IN FOR M2

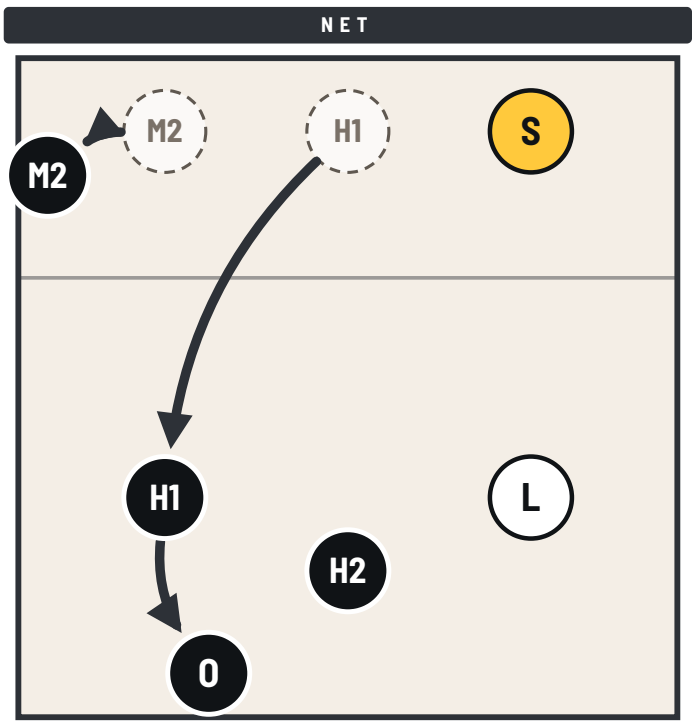

NO OVERLAP TRAPS

Nothing tricky here. Line up as shown.

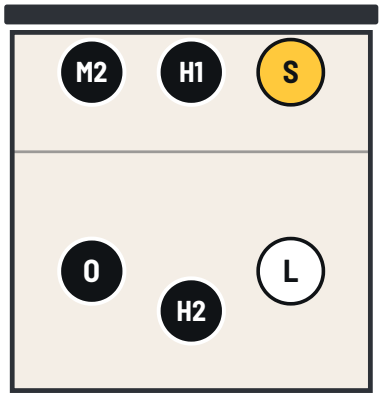

2 Setter Position 2

Watch it move

RECEIVE · MOVES FROM BASE

BASE · LINE UP · L IN FOR M1

EASY TO GET WRONG HERE

M2 stays left of H1
